TRANSMITTAL LETTER

**THE HONORABLE SPEAKER OF THE HOUSE OF REPRESENTATIVES AND THE
HONORABLE PRESIDENT PRO-TEMPORE OF THE HOUSE OF SENATE**

We have undertaken a financial statements audit of the Government of Liberia Consolidated Fund Account for the fiscal year January 1, to December 31, 2024. The audit was conducted in line with Section 2.1.3 of the General Auditing Commission (GAC) Act of 2014.

Findings conveyed in this report were formally communicated to the authorities of the Ministry of Finance and Development Planning for their responses. The reportable issues were submitted through a Management Letter. Where responses were provided, they were evaluated and were incorporated in this report.

Given the significance of the matters raised in this report, we urge the Honorable Speaker and Members of the House of Representatives and the Honorable Pro-Tempore and Members of the Liberia Senate to consider the implementation of the recommendations conveyed in this report with urgency.

**FINANCIAL STATEMENTS AUDIT OF THE GOVERNMENT OF LIBERIA CONSOLIDATED
FUND ACCOUNT FOR THE FISCAL YEAR JANUARY 1, TO DECEMBER 31, 2024**

Qualified Opinion

We have audited the financial statements of the Government of Liberia Consolidated Fund Account for the fiscal year January 1, to December 31, 2024, which comprise the statement of cash receipts and payments, statement of comparison of budget and actual amount, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, except for the possible effects of the matters described in the Basis for Qualified Opinion paragraphs below, the accompanying financial statements of the Government of Liberia Consolidated Fund Accounts present fairly, in all material respects, the statement of Receipts and Payments as at December 31, 2024, the statement of Comparison of Budget and Actual Amounts and summary of significant accounting policies and other explanatory information for the fiscal period then ended in accordance with International Public Sector Accounting Standards (IPSAS 2017) Cash Basis of Accounting.

Basis for Opinion

During our audit of the Government of Liberia Consolidated Funds Account financial statements for the fiscal year ended December 31, 2024, we identified significant issues that have led to our qualified opinion:

- Material variances amounting to US\$ 6,196,624.31 were observed between expenditure figures recorded in the IFMIS ledger and expenditure figures reported in the financial statements.
- Explanation of material variances between the Statement of Comparison of Budget and Actual Amounts were not cross referenced and disclosed in the notes to the financial statements as required.

These issues have a material impact on the financial statements, causing material misstatements and raising concerns about the accuracy and reliability of the reported financial position and performance of the Government of Liberia Consolidated Fund Accounts for the year ended.

These issues have a material impact on the financial statements, causing material misstatements and raising concerns about the accuracy and reliability of the reported financial position and performance of the Government of Liberia Consolidated Fund Accounts for the year then ended.

We conducted our audit in accordance with International Standards of Supreme Audit Institutions (ISSAIs). Our responsibilities under those standards are further described in the Auditor's

Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Ministry of Finance and Development Planning in accordance with the ethical requirements that are relevant to our audit of the financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

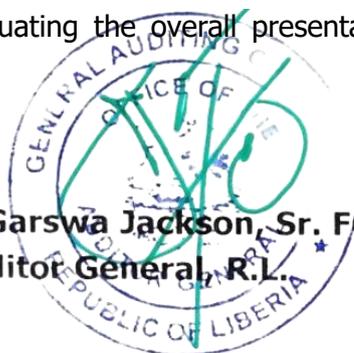

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IPSAS Cash Basis, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. In preparing the financial statements, management is responsible for assessing its ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to cease operations, or has no realistic alternative but to do so. The MFDP Management is responsible for overseeing the Entity's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

An audit in accordance with ISSAIs involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Statement of Responsibility for the Preparation of the FY 2024 Consolidated Fund Accounts

The FY2024 Consolidated Fund Account, as set out on pages 2 to 6, has been prepared in accordance with the provisions of the Amendment and Restatement of the Public Financial Management (PFM) Act of 2009, and its attendant Regulations, and in compliance with Cash Basis International Public Sector Accounting Standards (Cash-IPSAS) adopted by the Government of Liberia in 2010.

In accordance with the provisions of the Amendment and Restatement of the PFM Act of 2009, we are responsible for the control and accounting of the Consolidated Funds and all other public funds received, held and expended on behalf of the Government of Liberia.

Under the provisions of the same Act, we are required to prepare and transmit to the Auditor-General and the National Legislature the Final accounts of the Consolidated Fund within a period of four months after the end of the year.

Accordingly, we are pleased to submit the required FY2024 (January 1 to December 31, 2024) Consolidated Fund Account, in compliance with the PFM Act and its attendant Regulations. We have provided, and will continue to provide all of the information and explanations as may be required in connection with the Consolidated Fund Accounts herein.

In preparing the Year Consolidated Fund Account, the most appropriate accounting policies have been consistently applied and supported by reasonable and prudent judgment and estimates, where applicable. To the best of our knowledge and belief, the Year Consolidated Fund Accounts agree with the ledger accounts, which have been properly kept.

We accept responsibility for the preparation and presentation of the financial statements, the financials presented herein, the financial information they contain and their compliance with the provisions of the Amendment and Restatement of the PFM Act of 2009 and its attendant regulations.

CONSOLIDATED FINANCIAL STATEMENTS

**FOR THE PERIOD JANUARY 1– DECEMBER 31,
2024
FISCAL YEAR 2024**

(AUDITED)

1 Statement from the Comptroller and Accountant General

I am pleased to present the unaudited financial statements of the Government of Liberia for the fiscal year ended 31st December, 2024.

The financial statements of the Government of Liberia are prepared by the Comptroller and Accountant General of the Republic of Liberia in compliance with Part VII, Section 48 of the Amended and Restated Public Financial Management (PFM) Act of 2009 and its attendant Regulation Part VII, Subpart II-202 and Subpart III-215 and the IPSAS-2017 Cash Basis of Accounting. The financial statements herein and explanatory notes cover cash receipts and payments from January 1 to December 31, 2024.

The total approved resource envelope for FY2024 National Budget was US\$738.86 million. This implies a 4 percent decrease when compared to the FY2023 Approved National Budget of US\$771.70 million. The approved resource envelope was forecasted from domestic and external sources. Domestic revenue was projected at US\$696.43 million, of which tax revenue accounted for US\$ 540.53 million and non-tax revenue accounted for US\$ 155.90 million while external resources are projected at US\$42.43 million.

The total approved expenditure for the FY2024 National Budget was US\$738.86 million which was consistent with the total revenue forecast for the period. This signified a decrease of 0.4 percent when compared to the FY2023 approved expenditure of US\$771.70 million. The total expenditure envelope was divided into two main categories: recurrent expenditure was US\$643.72 million which constituted 87.1 percent of total expenditure while budgeted expenditure on Public Sector Investment Programs (PSIP) was US\$95.14 million accounting for 12.9 percent of total expenditure.

During the mid-year review in 2024, the budget was revised along various tax and expenditure lines maintaining the overall target. Of the revised amount, domestic revenue target was shifted downward from US\$ 696.43 million to US\$690.86 million or 0.8 percent. External resource was also shifted downward from US\$ 42.43 million to US\$40 million or 6.1 percent. Recurrent expenditure increased by US\$ 28.63 million or from US\$ 643.72 million to US\$ 672.35 million while public sector investment program (PSIP) decreased by the same amount from US\$ 95.14 million to US\$ 66.50 million to meet overdue international debt obligation.

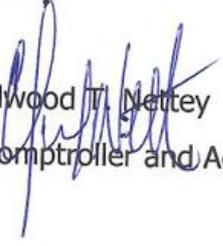

The total revenue collection for FY 2024 (inclusive of Vendor Share) stood at US\$748.16 million (inclusive of the 90-day window period to retrieve any revenue in transit) or 1.3 percent above the total revised target. Domestic Revenue accounted for US\$698.66 million or 93.38 percent while External resources accounted for US\$40.00 million or 5.35 percent and US\$9.5 million or 1.27 percent was on account of domestic financing. When compared to the previous fiscal period, total revenue grew by US\$32.24 million or 4.5 percent. Domestic revenue also exceeded the previous fiscal period by US\$86.71 million or 14.2 percent. The steady growth in domestic revenue is on account of the compliance improvement programs, rigorous enforcement exercises and the commitment to moving the revenue envelope to billion.

*AUDITOR GENERAL'S REPORT On the
Financial Statement Audit of Consolidated Fund Account
for Fiscal Year January 1, 2024 to December 31, 2024*

Total over all cash expenditure for FY2024 amounted to US\$ 735.65 million with recurrent expenditure accounting for US\$ 670.11 million or 91.09 percent of total expenditure and PSIP representing US\$ 65.50 million or 8.90 percent of total expenditure. In comparison to US\$ 828.53 million spent in the prior year (FY2023), FY 2024 reduced by US\$92.92 million or 11.22 percent.

However, within this period, January 1 to December 31, 2024, total cash revenue summed up to US\$ 685.56 million which represents 92 percent of the total overall revenue collected of US\$ 748.16 million (inclusive of the 90-day window period to retrieve any revenue in transit) and 93 percent of the total approved revenue of US\$ 738.86 million. Of the US\$685.56 million, domestic revenue accounted for US\$ 645.56 million and external revenue stood at US\$40.00 million. Total cash expenditure within the same period rose to US\$ 660.57 million representing 89.79 percent of overall total cash expenditure of US\$ 735.61 million (inclusive of the 90-day Expenditure period) and 89.41 percent of total approved expenditure of US\$738.86 million; thereby, closing the financial year with a reconciled cash balance of **US\$ 27.95 million as at December 31, 2024.**

In appreciation of the full nature of government economic intervention in the economy, stakeholders and interested parties concerned are required to digest these financial statements for the period January 1 to December 31, 2024 in conjunction with the underlying notes for better information, understanding and interpretation.

Elwood T. Nettey

2 Notes to the Consolidated Fund Account

The numbered notes that follow relate directly to the content of the Consolidated Financial Statements and are numbered accordingly.

2.1 General Information and Accounting Policies

The Consolidated Financial Statements presented above reflect the cash receipts and payments of the Government of Liberia for the period January 1 to December 31, 2024 on the basis of monies received by, held in or paid out of the Consolidated Fund during the period under review. The Government, through the Office of the Comptroller and Accountant General, operates a centralized treasury function that administers cash expenditures on behalf of all Ministries, Agencies & Public Corporations/Commissions (MACs) during the financial year. The amounts appropriated to line MACs and not expended directly by them, are disbursed on their behalf by the Office of the Comptroller and Accountant General on presentation of appropriate documentation and authorization.

The Year Consolidated Fund Account is for the Government of Liberia and encompasses the financial transactions of the Consolidated Fund relating to Government's MACs. There are constitutionally established and other statutory institutions that received cash transfers and their reports are included. All forms of external assistance provided through the Consolidated Fund (direct budgetary support) have been captured for the financial period January 1 to December 31, 2024.

The accounting policies of the Government of Liberia are the specific accounting principles, bases, conventions, rules and practices adopted by Government of Liberia in preparing and presenting the Consolidated Fund Account. The principal accounting policies adopted for the preparation, presentation, and disclosures note to the financial statements are set out below. These policies have been consistently applied to all years, unless otherwise stated.

a) **Basis of Preparation**

The Consolidated Fund Account has been prepared in accordance with the requirements of the Amendment and Restatement of the PFM Act of 2009, and complies with the Cash Basis IPSAS 2017 as adopted by GOL. The measurement basis applied is the historical cost, except where otherwise stated in the accounting policies below. The accounting policies adopted have been consistently used throughout.

b) **Reporting Entity**

The Consolidated Fund Account is for the central Government of Liberia and encompasses the financial transactions on the Fund relating to Government's MACs.

c) **Reporting Currency and Translation of Foreign Currencies**

*i. **Functional and Presentation (or Reporting) Currency***

The Republic of Liberia operates a dual currency regime comprising the Liberian Dollar (L\$) and the United States Dollar (US\$), both of which are legal tenders. The attendant Financial Regulations to the Amendment and Restatement of the PFM Act of 2009 states: "The monetary unit of Liberia for all government agency accounting

and financial reporting shall be the Liberian Dollar. The United States Dollar may also be used for financial reporting purposes, but the Liberian Dollar is the base currency.”

Hence, for the purpose of the Consolidated Financial Statements being submitted, the United States Dollar is used as the reporting currency, which is permitted under the attendant Financial Regulations to the PFM Act of 2009.

ii. Translation of Transactions in Foreign Currency

Foreign currency transactions and transactions in Liberian Dollars are translated into United States Dollars using the exchange rates prevailing at the dates of the transactions. Closing monetary balances are translated into the reporting currency using the closing date rates. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation as at December 31, 2024 exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the statement of cash receipts and payments.

For the preparation of the year (1st January to 31st December 2024) Consolidated Fund Accounts FY2024, the exchange rate used was LD\$183.68 to US\$1.

d) Reporting Period

The reporting period for these financial statements is the financial period of the Government, which runs from January 1 to December 31, 2024 and January 1 to March 31, 2025 as provided for according to Section 34.2 of the Amended and Restated Public Financial Management Act of 2009.

e) Receipts

Receipts represent cash received by the Government and paid into the Consolidated Accounts during the financial year; these receipts comprise of Taxes on Income and Profit, Property Taxes, Domestic Taxes on goods and services, Maritime Revenue, Taxes on International Trade, Grants, Borrowings and Non-Tax Receipts. Many services and benefits are provided by the Government to the public, but these do not necessarily give rise to revenue to the Government. Equivalently, payment of tax and other dues do not necessarily result in an entitlement to the taxpayer to receive the equivalent value in services or benefits, because there is no explicit relationship between payment of taxes and other dues, and receipt of goods and services from the Government. Receipts are recognized in the Statement of Cash Receipts and Payments as follows:

i. Taxes

Taxes are recognized when they are received and under the control of Government.

ii. Grants

Grants are recognized when received. Similarly, grants and transfers to other entities of Government are recognized when disbursements are made.

iii. Non-Tax Revenue

Non-Tax Receipts are fees or charges collected, and proceeds from sales of designated services, by the Government. Sales of services are recognized in the period in which the payment for the service is received, and not necessarily when the service is rendered. Non-Tax Receipts, whether directly collected by the Government or collected by another entity on its behalf, is recognized when received.

f) Expenses

All expenses are recognized in the statement of Cash Receipts and Payments when paid. However, expenses relating to domestic arrears, interest expense and other liabilities are accrued by inclusion in the Statements of Financial Performance and Financial Position.

g) Property, Plant and Equipment (PPE)

Property, plant and equipment principally comprise of land, buildings, plant, vehicles, equipment, highways, specialized military equipment and any other infrastructure assets. However, this does not include regenerative natural resources such as forests and minerals. Under the Government of Liberia cash basis of accounting, purchases of property, plant and equipment are expensed fully in the year of purchase. Proceeds from disposal of property, plant and equipment are recognized as non-tax receipt in the period in which they are received.

h) Inventories

Consumable supplies are expensed in the period in which they are paid for.

i) Employee benefits

Employee benefits include salaries, wages, allowances, pensions and other employment related costs. Employee benefits are recognized when they are paid. No provision is made for accrued leave or reimbursable duty allowances.

i. Contingencies

Contingent liabilities are recorded in the Statement of Contingent Liabilities (on memorandum basis) when the contingency becomes evident and under the cash accounting method, they are recognized only when the contingent event occurs and payment is made. Contingent assets are neither recognized nor disclosed. For the period under review, there was no contingent liability.

ii. Commitments and Guarantees

Long term Commitments, including operating and capital commitments arising from non-cancellable contractual or statutory obligations as well as Guarantees made by the Government, will be reported as Notes to the Financial Statements. However, for the year ended, there were no commitments and guarantees.

2.2 Cash and Cash Equivalents

Cash and Cash Equivalents comprise cash balances in the Government's accounts held at the

Central Bank of Liberia. The government's accounts constitute the bank accounts of the Consolidated Funds. Increase in cash from receipts and payments for the FY2024 is US\$ 24.99 million while ending cash balance as at December 31, 2024 is US\$27.95 million.

2a. Prior Period Adjustment

The beginning cash for FY2024 which is the reconciled closing cash balance for FY2023 of US\$ 4.56 million was adjusted downward to US\$ 1.58 million. The adjustment is due to the difference in the FY2023 and FY2024 reporting period and the correction was made by adjusting the opening balance of FY 2024 in compliance to IPSAS 1.5.3 (Correction of Errors). The error was identified and corrected during the final reconciliation process for the preparation of the Consolidated Annual Account for FY2024. Foreign currency gain for the year ended rose to US\$ 1.37 million. This was due to the increment in Government payment regime especially shifting payroll expenditures from 80/20 to 70/30 (usd/lrd) for the period.

The sum of the Treasury Balances as at December 31, 2024 was US\$ 27.95 million. This amount was the Government of Liberia gross ending balance for the year ended December 31, 2024 and was available for the settlement of GoL commitments during the window period in FY2025 (January 1 to March 31, 2025). During the year ended December 31, 2024, there was no restricted cash; all ending balances are controlled by the government and held at the Central Bank of Liberia. During the period under review, there was no short-term investment by the government of Liberia to be qualified as cash equivalent.

2.3 Borrowing

The total borrowing for the Year ended FY2024 amounted to US\$49.50 million compared to US\$ 222.29 million borrowed in FY2023 reflecting a variance of US\$172.79 million which is a decrease in FY2024. Of this amount, external borrowing accounted for 81% or US\$40.00 million, while domestic borrowing accounted for 19% or US\$9.50 million. The Source of the external borrowing was the World Bank, while domestic borrowing was from commercial banks in the form of T-Bond.

2.4 Other Receipts

Non-tax revenue collected for FY2024 was US\$ 138.66 million. The positive variance of US\$ 53.12 million shows an over performance of 38% when compared to FY2023 collection of US\$ 85.54 million. Analyzing the key components of non-tax revenue, it can clearly be seen that the most over performed tax lines are recorded in Property Income and Royalties and Rents as well as administrative fees.

A Comparison of the actual of US\$ 138.66 million to the final budget of US\$ 119.32 million shows an over performance of US\$ 19.34 million or 16% as shown below:

a. Property Income

Property income: for the FY-2024 yielded US\$ 94.67 million compared to US\$ 64.69 million in FY2023 shows an over performance of US\$ 29.99 million or 32%.

Dividends: Projected at US\$ 13.34 million, actual collection for the reporting year amounted to US\$ 5.50 million showing an under performance of US\$ 7.84 million.

Road Fund: During the period under review, US\$ 31.55 million was collected over performing by US\$12.95 million as compared to US\$ 18.60 million collected in FY2023. While arrears collected in FY2024 amounted to US\$ 0.24 million compared to FY2023 of US\$ 0.3 million. Actual receipts under performed by US\$ 3.40 million when compared to final budget of US\$ 34.95 million.

Forestry. Although Forest sector revenue is expected to encounter some risk due to a memorandum of understanding (MOU) with selected loggers; for its part, government provides tax credit to Euro Logging Company and Liberia Hardwood Corporation for the construction of laterite

roads. As a result, these company are allowed to deduct the cost of road from the tax liability; however, performance in FY2024 was impressive. Of the total final budget of US\$ 3.42 million, US\$ 4.52 million was collected over performing by US\$ 1.1million.

Agriculture. The main risk factor to agriculture revenue is surface rent. Challenges in accessing land areas by concessionaires are the main reason for perceived risk to agriculture surface rent as concessionaires are contending that they cannot continue the payment of surface rent for land areas they do not have access to. However, performance in FY2024 was a bit impressive. From a final budget of US\$ 0.60 million, US\$ 0.67 million was collected.

Mining. Mining revenue did perform above expectation for the year by US\$8.3million. It yielded US\$ 41.61 million compared to the final budget of US\$ 33.31 million. This over performance is driven by successes in mining activities and improved compliant programs during year ended.

Revenue from Intangible non-produce assets in FY2024 performed below expectation by US\$0.1 million with a final budget of US\$ 10.44 million against collections of US\$ 10.29 million. When compared to US\$ 2.95 million in FY2023, there is an over performance of US\$ 7.34 million for the period under review.

Other property income in FY2024 accounted for US\$ 0.21 million as compared US\$ 0.28 million in FY2023.

c. Fines Penalties, Interests and Forfeits

Administrative penalties, interests and forfeits of US\$ 19.78 million in FY2024 experienced an increase of US\$ 19.13 million when compared to actual in FY2023 of US\$ 0.65 million due to the administrative actions and enforcement on taxes for straight compliance with LRC.

Fines and forfeit over performed the final budget amount of US\$ 0.30 million by US\$19.48 million.

2.5 Undrawn Borrowing Facilities

There was no Undrawn Borrowings for the period under review in FY2024.

2.6 Significant Controlled Entities

There are sixteen SOEs that are currently being tracked by Bureau of State Enterprise. The government and people of Liberia own 100% shares of SOEs that are being tracked. The reporting arrangement is such that SOEs are to submit periodic financial statements in accordance with the Amendment and Restatement of the PFM Act of 2009.

2.7 Authorization Date

The financial statements were authorized for issue on April 30, 2025 by Honorable **Augustine Kpehe Ngafuan**, Minister of Finance and Development Planning, Republic of Liberia, West Africa. The financial statements do not reflect transactions or events after this date.

2.8 Original and Final Approved Budget and Comparison of Actual and Budget Amounts

The approved budget is developed on the same accounting basis (cash basis), same classification basis by economic nature, and for the same period (from 1 January 2024 to 31 December 2024) for the presentation of the financial statements. However, in the presentation of the National Budget for FY2024, the classification scheme adopted was by national programs. The reconciliation between the two bases adopted was based on looking at the individual ministries, agencies, and commissions in program budget and aligning it with the detail economic classification in order to present the financial statements by economic nature thereby, bringing the two bases into two as required by IPSAS. It

encompasses the same entities as the consolidated financial statement – these are identified in Note 7 above.

The National budget objectives and policies, and subsequent revisions are explained more fully in the Operational Review and Budget Out-turn Report issued in conjunction with the financial statements.

2.9 External Assistance

During the period under review FY2024, the government of Liberia did not receive external assistance. Total appropriation for grants in the approved budget for FY2024 was US\$2.4 million. However, during the mid-year review, it was revised to zero as shown in the table below.

2.10 Tax Revenue

The final approved tax revenue in FY2024 is US\$ 571.54 million. Actual Tax Revenue realized for the same period totaled US\$ 560.00 million; thus shows an under performance of US\$ 11.53 million as a result of compliance issues.

Taxes on income and profits, the first highest in Tax Revenue, have a negative variance of US\$ 28.43 million against a final budget of US\$ 284.55 million due to the untimely payment of corporate income tax (residence) as well as taxes on non-resident by employers. However, taxes on property have a negative variance of US\$ 1.16 million compared to a final budget amount of US\$ 6.00 million showing an under performance for the period.

*AUDITOR GENERAL'S REPORT On the

However, other taxes performed above expectation of US\$ 9.25 million by US\$ 1.36 million during the period under review FY2024. During the year, other taxes amounted to US\$ 10.61 million compared to US\$ 27.0 million in FY2023 shows an under performance of US\$ 16.37 million.

Taxes on goods and services also performed above target by US\$ 1.22 million as collection for taxes on goods and services was not impressive for the period as shown in the table below.

(10a) Taxes on Income and Profit

Taxes on income and Profit for FY2024 yielded an actual of US\$ 256.11 million. When measured against final budget of US\$ 284.55 million translates a decrease in performance of US\$ 28.43 million. When compared to FY2023 of US\$ 220.35 million, taxes on income and profit over performed by US\$ 35.76 million. Accounting for 62% of total income and profit tax, personal income tax (PIT) amounted to US\$ 158.46 million over performing a final budget of US\$ 134.14 million by US\$ 24.32 million.

Corporate Income Tax (CIT) of \$ 45.84 million underperformed by US\$11.18 million when compared to final budget of US\$ 57.02 million. This underperformance is largely due to the untimely collection of CIT.

Amounting to US\$ 13.68 million, Taxes on non-residence under performed by US\$1.83 million in FY2024 against a final budget of US\$ 15.52 million. When compared to FY2023 of US\$ 12.75 million this year over performed of US\$ 0.93 million due to the improved compliance program.

(10b) Real Property Taxes

The main potential in real property taxes is still unexploited. Tax policy measures and political will to invest in real property tax administration are cardinal to improving performance. Real property taxation's contribution to the national budget is still within 1% of the envelope. US\$ 6.00 million was projected as final budget for year ended FY2024 and US\$ 4.84 million was collected which shows an under performance of US\$ 1.16 million. Administrative measures to improve compliance and widened the tax net are being considered.

Taxes on property have a positive variance of US\$ 0.06 million when compared to FY2023 of US\$ 4.78 million due to the timely payment of taxes on immovable property. While there are prospects, category of taxes on improved land no matter where situated had a negative variance of US\$ 1.19 million compared to final budget of US\$ 5.70 million.

4 Report of the Comptroller and Accountant General R.L

1. Introduction

This Report provides commentary and analyses of the cash receipts, payments, and (financial performance) of the Consolidated Fund of the Government of Liberia for the financial period January 1 to December 31, 2024.

The accompanying Consolidated Fund Account provides useful information on the Government's financial performance for the period January 1 to December 31, 2024 and of its financial position as at that date.

The Consolidated Fund Account of the Government of Liberia for the Year, January 1 to December 31, 2024 has been prepared in accordance with Part VII, Section 48 of the Amended and Restated PFM Act of 2009 and its attendant Regulation Part VII, Subpart II-202 and Subpart III-215. Furthermore, this Consolidated Fund Account has been prepared in compliance with the revised Cash Basis IPSAS 2017 adopted by the Government. The Cash Basis IPSAS was introduced by GOL in FY2009/10 to be used for the preparation of financial statements of applicable institutions for the Financial Year July 1, 2009 – June 30th, 2010 and onwards. However, on June 21, 2021, the government of Liberia adopted the Final Pronouncement of the Cash Basis IPSAS 2017 for the preparation of financial statements for Public Service Institutions excluding SOEs that use IFRIS.

2. Summary

Table 28 shows a snapshot of the financial performance of the Consolidated Fund for FY2024, January 1–December 31, 2024 and the closing financial position as compared to the previous fiscal year. Total Revenue generated, excluding ECOWAS Trade Levy of US\$ 7.6 million amounted to US\$ 740.53 million. Total Operating expenses excluding Loan repayment of US\$ 49.29 million amounted to US\$ 563.88 million and the net surplus as at **December 31, 2024 is US\$ 176.65 million.**

3. FY2024 National Budget

FY2024 National Budget marks the third of the new fiscal year (January 1 – December 31), consistent with Section 65(1) of the Amendment and Restatement of the PFM Act of 2009. As a part of the Government's commitment to fiscal transparency, the FY2024 National Budget has been presented to show all components of revenue and expenditure as required by Section 15 of the Amendment and

Restatement of the Public Financial Management (PFM) Law of 2009. Also included in the approved budget for FY2024 are final budgets for State-Owned Enterprises as well as Aid estimates.

4. Revenue Estimates for FY2024

The total approved resource envelope for the FY2024 National Budget is US\$ 738.86 million. This implies a 4 percent decrease when compared to the FY2023 Approved National Budget of US\$771.70 million. This decrease is mainly attributed to a 61.4 percent projected decline in external resources. The approved resource envelope is forecasted from domestic and external sources. Domestic revenue is projected at US\$696.43 million, of which tax revenue accounts for US\$540.53 million and non-tax revenue accounts for US\$155.90 million while external resources are projected at US\$42.43 million.

Major constituents of tax revenue are taxes on income and profit, US\$244.95 million constituting 45.3 percent of total tax revenue; taxes on international trade, US\$197.69 million accounting for 36.6 percent of total tax revenue; goods and services tax at US\$83.53 million accounting for 15.5 percent of total tax revenue, while real property and other taxes account for US\$14.36 million, representing 2.7 percent. On the other hand, non-tax revenue is estimated at US\$155.90 million, of which property income tax is US\$127.45 million representing 81.8 percent as the major driver of the non-tax revenue.

Tax Policy Changes for FY2024 National Budget

There is no change in the tax policy for FY2024 except those tax policy changes reflected in the National Budget that proposed amendments to selected provisions of the Revenue Code. The amendments largely entail a simplification of the penalty regime, enhancement of the language on records to be kept, increase in the GST rate to 11 percent, imposition of airport departure tax at US\$25 dollars per departing passenger, and standardization of the petroleum excise regulation in the main text of the Liberia Revenue Code (LRC). The overriding objectives of the proposed amendments are to simplify the penalty regime, strengthen the LRA's capacity to collect information from taxpayers, shield the revenue base from further erosion, and increase revenue collection. Overall, the amendments are expected to lead to positive revenue outcomes when approved as submitted. Besides the GST and airport departure tax, the direct revenue impact of the majority of the amendments cannot readily be

provided, because most of these proposed changes are tax administrative measures. US\$0.20 million is proposed and will be transferred to support the devolved functions for the operation of the County Service Centers (CSC). The Social Development Fund (SDF) and the County Development Fund (CDF) have county-level governance structures that are responsible for overseeing the use of these funds. There is a forestry revenue sharing agreement of 40 percent, 30 percent, and 30 percent between the government, counties, and the affected communities, respectively. In FY2024, there is a final budget of US\$0.75 million for the affected areas in the respective Counties and Communities consistent with the Agreement Sharing.

5. FY2024 Approved Expenditure

The total approved expenditure for the FY2024 National Budget is US\$ 738.86 million, which is consistent with the total revenue forecast for the period. This signifies a decrease of 4 percent when compared to the FY2023 approved expenditure of US\$771.70 million. The total expenditure approved is divided into two main categories: recurrent expenditure which is US\$643.72 million accounts for 87.1 percent of total expenditure while spending on Public Sector Investment Programs (PSIP) is US\$95.14 million accounting for 12.9 percent of total expenditure. Below is a graphical comparative analysis of recurrent and PSIP expenditures for FY2023 and FY2024.

FIGURE 2 - FY 2024 APPROVED BUDGET AND FY 2023 APPROVED BUDGETS

6. National Budgeted Expenditure FY2024

The total approved expenditure in the national budget for FY2024 is US\$738.86 million. This corresponds with the total revenue forecast in adherence to the principle of balanced budget and in accordance with the provisions of the PFM Act, 2009, section 2 (3) and its attendant Regulations.

Recurrent expenditure in the national budget is the amount projected to cover the operational expenditures related to the routine functions of the government. In FY2024 national budget, total amount for recurrent expenditure is projected at US\$643.72 million. It is distributed as follows:

a. Compensation of Employees:

The total personnel expenditure is US\$ 298.7 million, representing 46.41 percent of the recurrent expenditure and 40.43 percent of the total expenditure. The major components of Compensation include basic salaries for civil servants, military and paramilitary service and elected, appointed officials and elected officials' staff.

b. Use of Goods & Services:

Spending on goods and services is projected at US\$ 104.9 million accounting for 16.3 percent of recurrent expenditure and 14.2 percent of total expenditure. Key expenditure items include the purchase of drugs, vaccines and medical supplies, educational materials and supplies, food supplies for hospitals, prisons and educational facilities, examination fees, bank charges, capacity building, rental and leases and other operational expenses of the government.

c. Subsidies:

Projected spending for Subsidies is US\$ 4.00 million, depicting 0.58 percent of total recurrent

expenditure and 1 percent of the total expenditure. Priority subsidies are targeted at complementing the efforts of private sector institutions providing basic social services to the population in the Social Development, Education and Health sectors as well the Industry and Commerce sector.

d. Grants:

Total grants is projected at US\$ 111.4 million, representing 17.3 percent of total recurrent expenditure and 15.1 percent of total expenditure. Key Government transfers target public hospitals and health facilities across the country, payments to ECOWAS as trade tariff, contributions to international organizations as subscription fees, funding for tuition free policy, the implementation of Government's policy to reclassify universities and community colleges as grants recipients, operationalize newly created government institutions, including the Standard Laboratory Authority, the Liberian National Commission on Arms, the Nimba University, the Grand Bassa University, the implementation of the ARREST agenda, the reintroduction and implementation of MTEF, incorporating the intervention of Climate Change Adaption, and Gender Responsive Planning and Budgeting (GRP).

e. Social Benefits:

Projected spending for this category of expenditure is US\$ 21 million, representing 3 percent of recurrent expenditure and 3 percent of total expenditure. Key expenditures include retirement benefits for former elected officials, judges, and pension funds for general civil servants, among others.

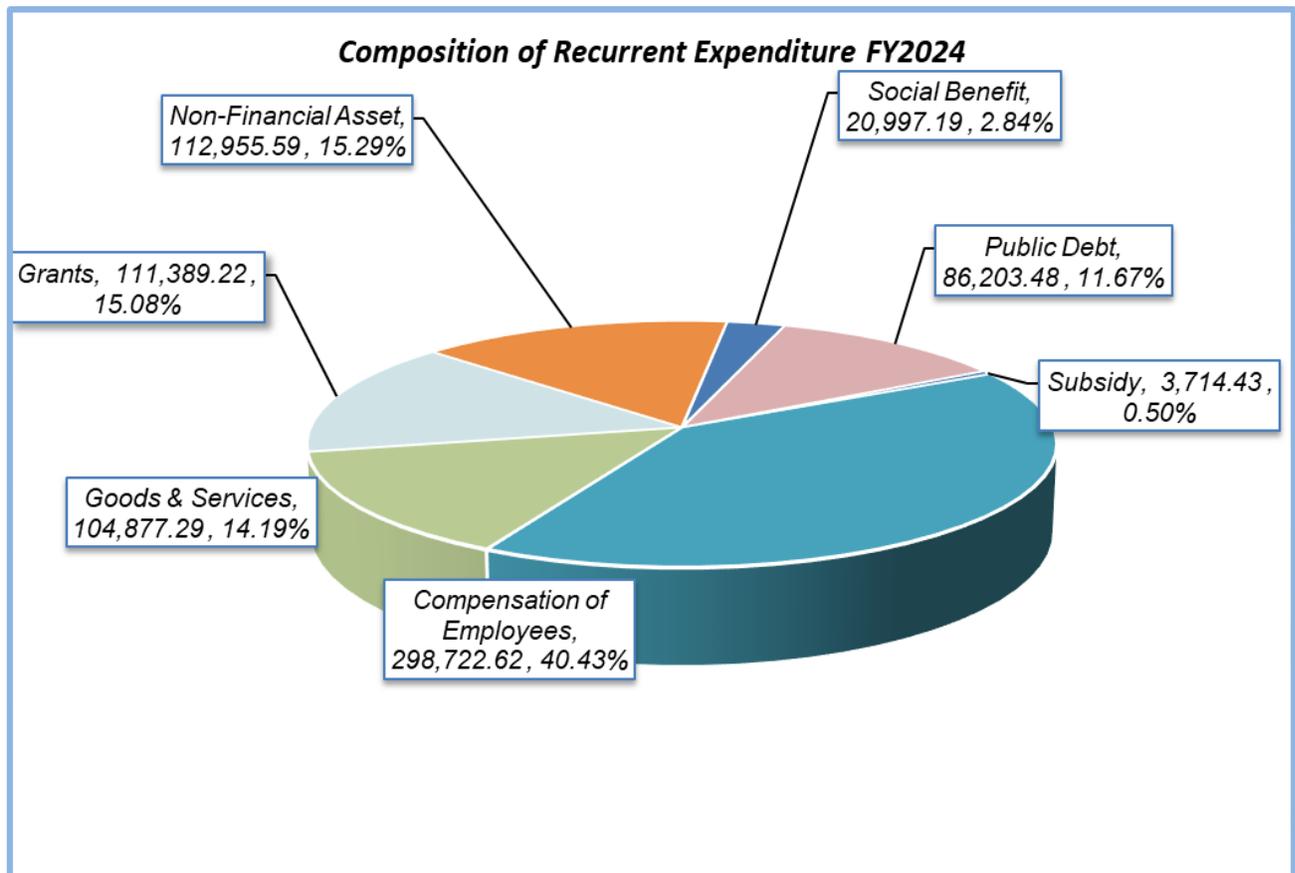

f. Non-Financial Asset:

Projected spending for Non-Financial Assets is US\$ 113.0 million or 17.5 percent of total recurrent expenditure and 15.3 percent of total expenditure. Major components include vehicles, furniture and fixtures, civil works, maintenance of roads and bridges, ICT, etc.

g. Debt Service:

Total debt service is projected at US\$ 86.20 million, representing 13.4 percent of recurrent expenditure and 11.7 percent of total expenditure. Of the total debt service, Domestic Liabilities constitute US\$ 26.38 million or 3.57 percent while Foreign Liabilities and subscriptions account for US\$ 59.8 million or 8.1 percent of total expenditure, respectively. Key components of domestic debt include interest charges on securities, domestic loans, government bonds, and other liabilities. Foreign liabilities include multi-lateral and bi-lateral loans, interest charges on these loans, subscriptions, and other payables.

FIGURE 3 - COMPONENTS OF RECURRENT APPROVED BUDGET EXPENDITURE FY 2024

7. Public Sector Investment Plan (PSIP) FY2024 National Budget

The Public Sector Investment Plan (PSIP) is estimated at US\$95.14 million, representing 12.9 percent of the total expenditure portfolio. PSIP is focused on key capital investments including counterpart funding, national road fund, and completion of ongoing projects. US\$ 6.35 million is allocated as Counterpart funding to service commitments in various sectors while US\$26.32 million constitutes GOL commitment to the National Road Fund. 9. State-Owned Enterprises

Fifteen (15) of the eighteen (18) entities covered in this annex failed to submit their financial plans for the 2024 fiscal year which is a violation of the requirements of sections 58(1) and 59(3) of the Amended and Restated PFM Act of 2009. Therefore, the estimates provided for those specific entities in the SOE FY2024 consolidated budget were generated using the historical trends and Compound Annual Growth Rate (CAGR) of the past operational performances of the entities and analysis of sector-specific and entity-specific factors. For a more realistic estimate, the available focal persons from the various entities were contacted and discussions held were taken into consideration. Therefore, these estimates could change should the SOEs submit their budget estimates for the 2024 fiscal year before the completion of the budget process. The table below presents the FY2024 consolidated estimate of the current portfolio of SOEs.

SOEs Revenue Estimate: The recurrent operating revenues are generated primarily from SOEs’ core operations. The consolidated gross recurrent operating revenue estimate for FY2024 is circa USD\$266.23million, with GOL’s approved share of revenue accounting for 28.77 percent, which decreased by 2.19 percent when compared to the FY2023 estimate. The revenue accrued to other entities accounts for 3.09 percent, with the net recurrent revenue estimated to be held by SOEs accounting for circa USD\$229.23million, or 86.10 percent of the gross recurrent operating revenue. The SOEs expected to contribute the largest to the revenue envelope of the government for the upcoming budget year are LEC (19.44 percent), NASSCORP (18.36 percent), LTA (8.68 percent), LIMA (10.22 percent), and LPRC (11.55 percent). The total estimated inflow to the sector for the fiscal period is circa USD\$306.27 million, of which GOL projected transfers to SOEs account for circa USD\$37.49 million, or 12.24 percent, donor support accounts for US\$0.70 million, or 0.23 percent, and miscellaneous income accounts for US\$1.86 million, or 0.61 percent. The table below provides details of the estimated recurrent operating revenue of the entities covered in this annex for FY2024.

SOEs' Expenditure Estimate: The consolidated expenditure approved for FY2024, excluding interest expense, tax expense, and dividend payments, is circa US\$235.83million, 2.90 percent above the FY2023 estimate. The entities driving the consolidated expenditure estimate are LEC (26.20 percent), NASSCORP (18.21 percent), NPA (14.36 percent), and LPRC (8.52 percent). Key drivers of the consolidated expenditure estimate for FY2024 are compensation for employees of circa USD85.82 (or 36.39 percent), spending on goods and services of circa US\$53.45 million (or 22.66 percent), investment expenditure of circa US\$22.12 million (or 9.76 percent), and payment of social security benefits and related expenses of circa US\$15.59 million (or 6.88 percent).

SOEs' Estimated Profits (Loss)/Surplus (Deficit): The 18 entities covered in this annex are projected to report a consolidated net operating surplus of circa US\$39.45million for the 2024 fiscal year. The entities expected to drive the estimated net operating surplus are LEC, LPRC, NASSCORP, and NPA, while LAA, LWSC, and NTA are expected to report net operating deficits for the next fiscal period.

10. External Resources

The Government of Liberia in an effort to utilize its country system, urges Development Partners to align aid programs to the National Development Strategy- ARREST which has distributed development priorities into separate but coordinate National Budget Sectors. This segment of the aid annex provides an overview of how the FY2024 aid forecast is to show aid final budget by aid type, budget sectors and development partners. For more details and access to project database, refer to this link: <https://www.liberiaproject.org>.

Off-Budget FY2024:

Trust Fund: Liberia Reconstruction Trust Fund (LRTF) is a mechanism aimed at strengthening the national infrastructure and public finance reform. For the FY 2024 is US\$4,450,000(2.03%) million of the totals Off - Budget contribution.

Pooled Fund: For the FY 2024 final budget, there is no final budget for the Pool Fund.

Project/ Program Aid: Is an off - budget projects and programs mechanism used to channel and execute aid through government ministries, agencies and non - governmental organizations. The FY2024 final budget under Program/project Aid is US\$212,286,536.74 million (96.86%) of the total Off - Budget contribution.

11. Comparative Analysis of Total Revenue receipts FY2024

Gross revenue (TAS) realized for FY2024 against the final budget of US\$738.86 million was US\$ 748.16 million thus resulting to an over performance of US\$ 9.30 million. When compared to FY2023 of US\$ 824.5 million collected, FY2024 under performed by US\$ 76 million or 9%. This over performance in FY2023 is a result of more borrowing. However, domestic revenue in FY2024 over performed FY2023 by US\$ 86.70 million or 12%.

Domestic Revenue constitutes US\$ 698.66 million showing an increase of US\$ 86.70 million or 12% compared to FY2023 of US\$ 611.96. There was an external revenue of US\$ 40.00 million as grant from the International Monetary Fund during the period under review compared to zero grant in FY2023.
