Management Letter On the Audit of the Liberia Sustainable
Management of Fisheries Project (LSMFP), National Fisheries & Aquaculture Authority (NaFAA)
For the Period January 1, 2022 to December 31, 2022

June 30, 2023

Hon. Emma Glassco

Director General

National Fisheries & Aquaculture Authority (NaFAA)

Bushrod Island

Montserrado, Liberia

Dear Hon. Glassco:

Re: Draft Management Letter on the Audit of the Liberia sustainable Management of Fisheries Project for the year January 1, 2022 to December 31, 2022.

The Audit of the Financial Records of the Liberia Sustainable Management of Fisheries Project (LSMFP) Project for the year January 1, 2022 to December 31, 2022 implemented by the National Fisheries & Aquaculture Authority (NaFAA) was commissioned by the Auditor-General (AG) on March 6, 2023, under AG's mandate as provided for in Section 2.1.3 of the GAC Act of 2014 as well as the Audit Engagement Terms of Reference (ToR).

Introduction

The LSMFP account is managed by the Minister of Finance in terms of the Grant agreement as of October 12-16, 2020.

The objectives of the audit were to express professional opinion on the LSMFP Financial Reports for the period ended December 31, 2022, as submitted to the World Bank and express an audit opinion according to Cash Basis International Public Sector Accounting Standards (IPSAS) promulgated by International Federation of Accountants (IFAC), whether the Financial Reports of the Liberia Sustainable Management of Fisheries Project submitted to the Bank are in accordance with the Project Financial Management Unit's (PFMU) policies and World Bank requirement for financial reporting".

Audit Scope and Methodology

The audit was conducted in accordance with International Standards of Supreme Audit Institutions (ISSAIs) as well as the Engagement (Audit) Terms of Reference. These standards require that we plan and perform the audit so as to obtain reasonable assurance whether the LSMFP financial statements and related records are free of material misstatements due to errors or fraud and comply with ethical requirements.

In planning and performing the audit, we considered the LSMFP internal controls over financial reporting that were considered to be significant deficiencies. Significant deficiencies involve matters coming to our attention relating to deficiencies in the design or operation of internal control over financial reporting that, in our judgment could adversely affect the LSMFP ability to initiate, authorize, record, process and report financial data reliably in accordance with the International Financial Reporting Standards, Cash Basis and the World Bank financial reporting framework.

Towards this end, we reviewed the Grant agreement, business and the control environment of the LSMFP through which risks of material misstatements affecting its operations were assessed using a risk-based approach. Audit procedures considered necessary were thus pursued to address the risks identified within LSMFP operations.

Limitation of Responsibility

We reviewed the systems and management controls operated by the Management of the Liberia Sustainable Management of Fisheries Project (LSMFP) only to the extent we considered necessary for the effective performance of this audit. As a result, our review may not have detected all weaknesses that existed or all improvements that could have been made.

The responsibility to put in place effective systems and controls for the prevention and detection of fraud, error and non-compliance with applicable accounting standards, laws and regulations and policies is the duty of the Management of the LSMFP.

Our responsibility under AG's mandate as provided for in Section 2.1.3 of the GAC Act of 2014 as well as the Audit Engagement Terms of Reference (ToR) is to provide certification on the LSMFP financial statements and related records based on the outcome of our examination of the financial statements and related records.

Appreciation

We would like to express our appreciation for the courtesy extended and assistance rendered by the staff and Management of the Liberia Sustainable Management of Fisheries Project and other individuals who contributed to success of this Audit. The audit findings which were identified during the course of the audit are included.

. Garswa Jackson, Sr. ACCA, CFIP, CFC

Monrovia, Liberia

June 2023

1. DETAILED FINDINGS AND RECOMMENDATIONS

1.1 Financial Issues

1.1.1 Inadequate Trial Balance

Observation

- 1.1.1.1 Section A3 of the PFM Regulation states that; "any public officer concerned with the conduct of financial matters of the Government of Liberia, or the receipt, custody and disbursement of public and trust moneys, or for the custody, care and use of government stores and inventories shall keep books of accounts and proper records of all transactions and shall produce the books of accounts and records of the transactions for inspection when called upon to do so by the Auditor- General, the Comptroller General, the relevant internal auditor or any officers authorized by them, by the Minister".
- 1.1.1.2 During the audit, we observed that the trial balance was inappropriately prepared. Instead of the ledger accounts titles and their respective closing balances, the trial balance contains the names of individuals to whom payments were made for the provision and acquisition of goods and services. Balances could not be traced to detailed of revenue and expenditures reported in the general ledger.

Risk

- 1.1.1.3 Failure of Management to prepare a proper trial balance as required by the PFM regulation may lead to inadequate financial information to stakeholders which may adversely affect decision making.
- 1.1.1.4 Inappropriate preparation of the trial balance may lead to the financial statements been misstated.

Recommendation

- 1.1.1.5 Management should ensure that the trial balance is reflective of all ledger accounts closing balances.
- 1.1.1.6 Additionally, financial statements should be prepared by individuals who are qualified and experienced about the relevant standards. The financial statements should also be subsequently reviewed and approved by senior management to ascertain its accuracy and completeness.

Management's Response

1.1.1.7 The PFMU management takes serious exception to the above caption or heading. First and foremost, Management wishes to indicate that her system-generated trial balance has never been inadequate or inappropriate. Management has presented these trial balances to several external reviewers like the World Bank Financial Management Specialists, African

Development bank financial management specialists, the EU, SIDA, USAID, EY, KPMG, the GAC and others to review and they have never, to the best recollection of our memory, described our system-generated trial balance as inadequate Trial balance.

- 1.1.1.8 The system generated trial balance presented to the auditor and to all other external reviewers consists of all the general ledger accounts contained in the ledger of the projects. The list contains name of each nominal ledger account and the value of that nominal ledger balance. From the system generated trial balance, each nominal account holds an opening balance, period debits, period credits, period balance and a closing balance. The auditor's assertion of risk arising from the LSMFP management to prepare proper trial balance could lead to inadequate financial information to stakeholders is unfounded. Is the auditor insinuating that previous financial statements that Management has prepared are inadequate including those audited by the GAC? If the auditor needed better understanding of the system generated trial balance, he should have requested Management to do so rather than labeling our system-generated trial balance as inadequate. Interestingly, since the GAC has been auditing the PFS at the PFMU, this is the same system generated trial balance Management has been presenting to the GAC. How come this same trial balance is inadequate today?
- 1.1.1.9 Management wishes to maintain that the system generated trial balance is adequate and should not be labeled as such by the auditor. **Please see attached Exhibit I**.

Auditor General's Position

1.1.1.10 We acknowledge Management's assertion. However, the trial balance presented for audit purposes includes names of individuals with associated balances which cannot be traced to the financial statements. Account balances in the trial balance which are not traceable to the financial statements impair effective reconciliation, review, fair presentation, full disclosure and may lead to the financial statements being misstated. Management should therefore ensure that the trial balance contains ledger details that are traceable to the financial statements.

1.1.2 Payments made on the same Voucher Number

- 1.1.2.1 Section A3 of the PFM Regulation states that; "any public officer concerned with the conduct of financial matters of the Government of Liberia, or the receipt, custody and disbursement of public and trust moneys, or for the custody, care and use of government stores and inventories shall keep books of accounts and proper records of all transactions and shall produce the books of accounts and records of the transactions for inspection when called upon to do so by the Auditor- General, the Comptroller General, the relevant internal auditor or any officers authorized by them, by the Minister".
- 1.1.2.2 During the audit, we observed that payments amounting to US\$46,000.00 were made to separate clients on different dates but were paid on the same voucher number. **See Table 1 for details.**

Table 1: Payments made on the same Voucher Number

Date	Description	Payment Voucher No.	Amount US\$
20/12/2022	Payment for reimbursable apartment rental fees for 12 months	LSMFP/2022/256	36,000.00
16/12/2022	Payment for salary for the Month of December	LSMFP/2022/256	10,000.00
TOTAL			46,000

Risk

- 1.1.2.3 Multiple payments may be made for a single a transaction leading to misappropriation of project's funds.
- 1.1.2.4 Effective reconciliation and review of financial transactions may be impaired.

Recommendation

1.1.2.5 Management should ensure that all vouchers are serially and uniquely numbered, dated and authorized during the processing of all transactions.

Management's Response

1.1.2.6 This is acknowledged. It was due to an inadvertent error which has now been corrected.

Please find attached Exhibit II.

Auditor General's Position

- 1.1.2.7 We acknowledge Management's acceptance of our findings and recommendations and subsequent adjustments of the financial statements.
- 1.1.3 No Names and/or Titles of those Preparing, Reviewing and Approving Monthly Bank Reconciliation Statements

- 1.1.3.1 Count 6.5.1 of the PFMU Financial Procedure Manual revised February 2020 states that, "All cash books shall be reconciled monthly to the bank statements within 10 working days of the month end. Differences arising there from shall be investigated and resolved promptly".
- 1.1.3.2 Also, count 6.5.3 states that, "The PFMU Manager shall ensure that all reconciliation differences are properly and promptly investigated with a view to regularize them. To this end, all bank reconciliation statements prepared by the Assistant Project Accountant (APA) shall be reviewed by the Internal Auditor and approved by the Unit Head or Senior Accountant".
- 1.1.3.3 During the audit, we observed that the Project's bank reconciliation statements show that, there were no names and titles/positions for the preparer, reviewer, and the person responsible to approve the bank reconciliation statements as indicated in count 6.5.3 above.

1.1.3.4 Moreover, this issue was raised during last audit but Management failed to address our finding and recommendation.

Risk

- 1.1.3.5 The lack of the title of the preparer, reviewer, and the person responsible for approval of bank reconciliation statements may make it difficult to determine their level of experience and seniority of the preparer, reviewer and approval.
- 1.1.3.6 Segregation of duties and check and balances may be impaired.

Recommendation

1.1.3.7 Management should ensure that the titles of the preparer, reviewer and approval of the bank reconciliation statements are indicated adjacent their signatures to validate the existence of segregation of duties, check and balance, and a comprehensive review system.

Management's Response

- 1.1.3.8 According to the PFMU Financial Procedures Manual, Bank Reconciliation Statements are prepared by Assistant Project Accountants, Reviewed by Project Internal Auditors and Approved by either the PFMU Manager/Director or Senior Project Accountant/Deputy Director. Please find the sections below:
 - The PFMU Manager shall ensure that all reconciliation differences are properly and promptly investigated with a view to regularizing them. To this end, all Bank Reconciliation statements prepared by the APA shall be reviewed by the Internal Auditor and approved by the Unit Head or Senior Project Accountant.
 - (f)The cash books shall be reconciled with the bank statements monthly and the bank reconciliation statements shall be reviewed and verified by the Project Internal Auditor and approved by the PFMU Manager or Senior Project Accountant;
- 1.1.3.9 The PFMU is in full compliance with sections 6.5.3 and 7.1.1(f) of the Financial Procedures Manual. Anyone including GAC reviewing Bank Reconciliation Statements (BRSs) from PFMU will know that BRS are prepared by Accountants, reviewed by Auditors and approved by the Senior Project Accountant who happens to be the Deputy Director of PFMU. The risk stated by GAC in this instance is non existent.
- 1.1.3.10 Moreover, GAC was provided signature specimen of Groups Accountants, Internal Auditors, Unit Head / Director PFMU and Senior Project Accountant / Deputy Director PFMU in relations to Payment vouchers processing. The same signature specimen applies for Bank Reconciliations Statements.

Auditor General's Position

1.1.3.11 Management's assertions did not adequately address the issues raised. Going forward, Management should ensure that the titles of the preparer, reviewer and approver are displayed on the Bank Reconciliation Statements. Therefore, we maintain our findings and recommendations. We will follow-up on the implementation of our recommendations during subsequent audit.

1.1.4 Monthly Bank Reconciliations Not Prepared on a Timely Basis

Observation

- 1.1.4.1 Count 6.5.1 of the PFMU Financial Procedure Manual revised February 2020 states that; All Cash book shall be reconciled monthly to the bank statement monthly within 10 working days of the month end. Differences arising there from shall be investigated and resolved promptly. Un-Presented checks will be written back in the project's books of accounts one month after the negotiable period of six (6) months has elapsed.
- 1.1.4.2 During the audit, we observed that the Project's bank reconciliation statements for the period under audit, were prepared far beyond the required time stipulated in the PFMU Financial Procedural Manual stated above.
- 1.1.4.3 Additionally, we requested but were not provided the monthly bank reconciliation statements for the months of January, February and April. See Table 2 for details.

Table 2: Monthly Bank Reconciliations Not Prepared on a Timely Basis

No.	Bank Reconciliation Statement January 1, 2022 to December 31, 2022	Date of Preparation	Account Number USD
1	31-Jan 2022	N/A	6101852102
2	28- Feb 2022	N/A	6101852102
3	31-Mar-22	26-Apr-22	6101852102
4	30 Apr 2022	N/A	6101852102
5	31-May-22	8-Jul-22	6101852102
6	30-Jun-22	14-Jul-22	6101852102
7	31-Jul-22	22-Aug-22	6101852102
8	31-Aug-22	29-Sep-22	6101852102
9	30-Sep-22	31-Oct-22	6101852102
10	31-Oct-22	25-Nov-22	6101852102
11	30-Nov-22	20-Jan-23	6101852102
12	31-Dec-22	27-Jan-23	6101852102

Risk

- 1.1.4.4 Delay in the preparation of bank reconciliation statements may result into untimely detection of errors, omission or fraud.
- 1.1.4.5 This may also lead to misstatement of the cumulative fund balance and the financial position of the Project.

Recommendation

1.1.4.6 Management should facilitate timely preparation and approval of monthly bank reconciliation statements ten (10) days after the month end consistent with Count 6.5.1 of the PFMU Financial Procedure Manual revised February 2020.

Management's Response

- 1.1.4.7 We acknowledge the auditor's observation and will enforce the timely preparation of the bank reconciliations subsequently.
- 1.1.4.8 There are no bank reconciliations for the months of January and February, 2022 due to the main project account opening not being finalized until March, 2022. With the finalization of the account opening in March, 2022, bank reconciliations were prepared; and we have herewith attached the bank reconciliation for April, 2022. Please see attached Exhibit III.

Auditor General's Position

1.1.4.9 We acknowledge Management's acceptance of our findings and recommendations. We will follow-up on the implementation of our recommendations during subsequent audit.

1.1.5 Fixed Assets Irregularities

- 1.1.5.1 V.4 of the PFM Acts of 2009 as amended and restated 2019, titled Master Inventory of Furniture, Equipment, Vehicles, etc.
 - 1) Furniture, and equipment issued for Government quarters or offices or vehicle and other fixed asset shall be brought on a master inventory of the Government Agency.
 - 2) The master inventory shall record under each category of item:
 - a. the date and other details of the voucher or other document on which the items were received or issued;
 - b. their serial numbers where appropriate; and
 - their distribution to individual locations and the total quantity held.
 - 3) In respect of each individual location, there shall be made two copies of the inventory showing all items held at the location; one copy of the inventory shall be kept with the master inventory and the other copy at the location.
 - 4) The dates and other details of all receipts and issue of items to or from the location shall be recorded on both copies of the inventory as they occur.
 - 5) The initial entries and all other entries made later on both copies of the inventory shall be validated by the signature of the officer having the use of the items, or where there is more than one officer, the most senior of them.
- 1.1.5.2 Also, Count 5.11, Paragraph 82 of the Project Implementation Manual (PIM) states that; The Project Administrative Assistant must ensure that a verification count of all equipment and furniture recorded in the fixed assets register is performed quarterly. The following should be checked:
 - The location of equipment and furniture as previously recorded on the register
 - Equipment is still in a reasonable state of use
 - Any inconsistencies between the verification exercise and the fixed assets register

and investigate as the case may be.

- 1.1.5.3 Paragraph 83 of the PIM also states that; Assets that are missing or seriously damaged should be removed from the assets register. The removal should be formally documented and approved by the Project Account Officer and the Project Coordinator.
- 1.1.5.4 During the audit, we observed that the following irregularities were associated with the project fixed assets management system.
 - Several of the project's fixed assets were not coded,
 - The fixed assets register was not regularly updated,
 - There was no evidence of movement of assets form,
 - The fixed assets register did not contain all the relevant columns,
 - There was no evidence of periodic (quarterly) physical verification of fixed assets
 - Fixed assets within a given vicinity were not displayed as required by the PFM Act.
- 1.1.5.5 Additionally, there were two YAMAHA Motorcycles with License Plates 682 and 683 purchased in November 2022 that were not coded and recorded in the assets register.
- 1.1.5.6 Moreover, damaged assets are still maintained on the assets register as new assets. 44 pieces Samsung Galaxy Tablet costing US\$11,968.00 could not be verified during the assets verification exercise. Also, seven (7) of the nine (9) Jincheng motorcycle amounting US\$12,775.00 could not be verified as well. See Table 3 for details.

Table 3: Non-Performance of Quarterly Verification Exercise of Fixed Assets

No.	Item Description	Purchase Date	Unit Cost US\$	Amount in Qty.	Total Cost US\$
1.	Samsung Galaxy Tablet	October 25, 2020	272.00	44 Pcs.	11,968.00
2.	Jincheng Motorcycle	October 25, 2020	1,825.00	7 Pcs.	12,775.00

Dick

- 1.1.5.7 Fixed Assets Register may be misstated (Over/understated).
- 1.1.5.8 Assets may be damaged or impaired, but their values are still on the books.
- 1.1.5.9 Fixed assets may be removed from the entity's premises without authorization, misappropriated, subjected to personal use or theft.
- 1.1.5.10 The lack of asset movement log may make it difficult to keep track of assigned or transferred assets, which may lead to misuse, loss or theft of assets without being noticed.
- 1.1.5.11 Failure to properly account for fixed assets may lead to theft and misapplication of

equipment/materials. This may result in the non-achievement of the project's objectives.

1.1.5.12 Fixed Assets not coded may be susceptible to theft or diverted to personal use.

Recommendation

- 1.1.5.13 Management should account for all assets not seen during our physical verification exercise.
- 1.1.5.14 Management should ensure that all assets value is recorded and maintained in the register.
- 1.1.5.15 Management should ensure that the fixed assets register is updated to reflect the following; description, source of purchase, date of purchase, class, code, assignee, location, condition, original cost, depreciation expense, accumulated depreciation and net book value of the assets.
- 1.1.5.16 Management should conduct periodic fixed assets count and /or verification to determine the current condition and location of the assets. Evidence of physical verification should be adequately documented and filed to facilitate future review.
- 1.1.5.17 The Fixed Assets Register should be updated periodically to reflect all project's assets.
- 1.1.5.18 Fixed assets within a particular vicinity should be clearly displayed as required by the PFM Act.
- 1.1.5.19 Management should initiate/enforce a systematic fixed assets coding system to ensure all fixed assets are uniquely identified. This control will facilitate the efficient and effective periodic fixed asset verification exercises. Discrepancies in coding identified during verification should be updated in a timely manner.
- 1.1.5.20 A Movement of Asset Form should be filled and authorized before assets are moved from one location to another. The Fixed Assets Register should be updated to reflect the change in location of assets.

Management's Response

- 1.1.5.21 The two motorcycles with License Plates 682 and 683 purchased in November, 2022 were handed over to NaFAA, the beneficiary institution, documents of which were submitted on 27th of June to GAC for verification.
- 1.1.5.22 The required documentation for the 44 pieces Samsung Galaxy Tablets purchased for NaFAA, was transmitted via WhatsApp No. 0886849674 and acknowledged by GAC on the 27th of June, 2023.
- 1.1.5.23 Also, the documentation for the 7 Jincheng motorcycles alongside the above two motor bikes was submitted to the GAC and verified on the 27th of June, 2023.

 Auditor General's Position

- 1.1.5.24 We acknowledge Management's assertions and have adjusted our recommendations to reflect the followings:
 - The two motorcycles with License Plates 682 and 683 purchased in November, 2022 were verified but not coded.
 - The 44 pieces of Samsung Galaxy Tablets purchased for NaFAA were verified but some were not coded.
- 1.1.5.25 The 7 Jincheng motorcycles were not verified and are to be accounted for by Management.
- 1.1.5.26 We therefore maintain all other recommendations. We will follow-up on the implementation of our recommendations during subsequent audit.

1.1.6 Lack of Fuel Consumption Log for Generator

Observation

- 1.1.6.1 Regulations A.3 of the Public Financial Management (PFM) Act of 2009 states that;" Any public officer concerned with the conduct of financial matters of the Government of Liberia, or the receipt, custody and disbursement of public and trust moneys, or for the custody, care and use of government stores and inventories shall keep books of accounts and proper records of all transactions and shall produce the books of accounts and records of the transactions for inspection when called upon to do so by the Auditor General, the Comptroller General, the relevant internal auditor or any officers authorized by them, by the Minister".
- 1.1.6.2 During the audit, we observed that US\$16,464.00 was expanded for three thousand twenty-two (3,022) gallons of fuel for use by the generators at the Project's offices without evidence of consumption report/ fuel log.

Risk

- 1.1.6.3 Fuel procured may not be based on actual consumption.
- 1.1.6.4 Management may spend above budgeted allocation and fuel may be subjected to misappropriation or theft.

Recommendation

- 1.1.6.5 Management should provide substantive justification for the variance observed between the amount of fuel procured and amount distributed.
- 1.1.6.6 Going forward, Management should ensure that fuel procured are based on actual consumption.
- 1.1.6.7 Management should maintain a fuel consumption and distribution log to aid the project manage cost and inform future purchase. Fuel consumption and distribution log should be adequately documented and filed to facilitate future review.

Management's Response

1.1.6.8 Documents are still being put together for verification.

Auditor General's Position

1.1.6.9 We acknowledge Management's assertions that "Documents are still being put together for verification" and therefore maintain our findings and recommendations. We will follow-up on the implementation of our recommendations during subsequent audit.

1.1.7 Transactions without Supporting Documentations

Observation

- 1.1.7.1 Regulation P.9 (2) of the Public Financial Management Act of 2009 states that "Payments except for statutory transfers and debt service shall be supported by invoices, bills and other documents in addition to the payment vouchers".
- 1.1.7.2 Also, Section 9.1 of the World Bank procurement regulations states that; "The Borrower shall retain all documentation, and shall furnish such documentation to the Bank upon request, with respect to each contract subject to post review, according to the requirements of the Legal Agreement. This documentation shall include, but is not limited to:
 - a. complaints, the signed original of the contract and all subsequent amendments or addenda,
 - b. the Bids/Proposals evaluation report, and the recommendation for award; and
 - c. the payment invoices or certificates, as well as the certificates for inspection, delivery, completion, and acceptance of Goods, Works, and Non-Consulting Services, for examination by the Bank or by its consultants/auditors"
- 1.1.7.3 During the audit, we observed two (2) separate payments amounting to US\$458,640.00 were made without supporting documents. The review of the documents shows that the contract and bid documents were not attached to the payment vouchers. See Table 4 for details.

Table 4: Transactions Without Supporting Documentations

Payee	PV#	PV Date	Description	Amount in US\$
Mwetana Consulting & Tech. Group	LSMFP/2022/253	16/12/2022	Payment for 80% work completion against Fisheries Management & Info. System @ NaFAA.	282,240.00
Mwetana Consulting & Tech. Group	LSMFP/2022/123	02/08/2022	Payment to complete the establishment and roll-out of Fisheries Management & Info. System (MIS) @ NaFAA.	176,400.00
Total				458,640.00

Risk

1.1.7.4 In the absence of adequate supporting documents, the validity, occurrence and accuracy of payments may not be assured. This may lead to misappropriation of the project's funds.

- 1.1.7.5 The absence of adequate supporting documentation for transactions may also lead to fraudulent financial management practices, through the processing and disbursement of illegitimate transactions.
- 1.1.7.6 Management may override the procurement processes by completing disbursement without utilizing the required procurement processes.

Recommendation

- 1.1.7.7 Management should ensure all transactions are supported by the requisite supporting documents consistent with the financial management regulations.
- 1.1.7.8 Documentation such as contracts, invoices, goods received notes, job completion certificates, purchase orders, payment vouchers etc. should be prepared and approved for the procurement of goods and services where applicable.
- 1.1.7.9 All relevant supporting documents should be adequately documented and filed to facilitate future review.

Management's Response

1.1.7.10 Detailed attachments for the two payments to Mwetana Consulting & Tech. Group were submitted on the 28th of June, 2023 for verification.

Auditor General's Position

1.1.7.11 Management's assertion is not supported by documentary evidence. Therefore, we maintain our findings and recommendations. We will follow-up on the implementation of our recommendations during subsequent audit.

1.1.8 No Explanation of Material Variances

- 1.1.8.1 Part 1.7.8 of the Revised Cash Basis IPSAS (November 2017) provides that an entity that makes publicly available its approved budget(s) shall present a comparison of the budget amount for which it is held publicly accountable and actual amounts either as a separate additional financial statement of an additional budget columns in the statement of cash receipts and payments. The comparison of budget and actual amount shall present separately for each level of legislative oversight:
 - By way of note disclosure, an explanation of material differences between the budget for which the entity is held publicly accountable and actual amounts, unless such explanation is included in other public documents issued in conjunction with the financial statements, and cross reference to those documents is made in the notes.
- 1.1.8.2 The Project Financial Statements include a Statement of Comparison of Budget and Actual amount which shows material variances. However, the statement did not include notes for the explanation of the material variances.

1.1.8.3 During the conduct of the audit, we observed that the explanatory notes relating to the causes of significant variances between the budget and actual amounts were not disclosed in the financial statements. **See Annexure 1 for details.**

Risk

- 1.1.8.4 The completeness and accuracy of the revenue/ expenditure may not be assured; therefore, the financial statements may be misstated.
- 1.1.8.5 A misstated financial statement may facilitate fraudulent financial reporting and mislead the users of the financial statements.

Recommendation

- 1.1.8.6 Management should provide justification for the variance noted between the financial statements and the revenue / expenses.
- 1.1.8.7 Management should perform periodic (monthly) reconciliation between the financial statement, the revenue / expenditure and the bank statements. Variance recognized should be investigated and adjusted in a timely manner.
- 1.1.8.8 Periodic reconciliation on revenue reports should be adequately documented and filed to facilitate future review.
- 1.1.8.9 Management should facilitate the automated linkage of the revenue reporting software to provide consistency in revenue reporting.

Management's Response

1.1.8.10 This was earlier communicated and was also resolved in the revised financial statements.

Please See attached Exhibit IV.

Auditor General's Position

1.1.8.11 We acknowledge Management's acceptance of our findings and recommendations and subsequent adjustments of the financial statements.

1.1.9 Signing date of the Financial Statements not specified

- 1.1.9.1 Paragraph 1.4.5. of the IPSAS Cash basis reporting framework states "An entity shall disclose the date when the financial statements were authorized for issue and who gave the authorization. If another body has the power to amend the financial statements after issuance, the entity shall disclose that fact.
- 1.1.9.2 Regulation I.11. of the PFM Act of 2009 as amended and restated 2019-Annual Government Agency Accounts, states "(1) There shall be prepared by the head of government agency

or an administrator or head of any Government agency and transmitted to the, the Minister and the Comptroller-General in respect of the year, accounts covering all Public Funds under his control. The accounts shall be submitted within a period of two months after the end of each fiscal year, or such other period as the Legislature may by resolution appoint and shall include statements and documents to be specified in the International Public Sector Accounting Standards as adopted by the Government of Liberia.

1.1.9.3 During the audit, we observed that the financial statements signed by the Director of Donor Funded Projects of the PFMU, MFDP and the Project Coordinator did not specify the actual date the document was prepared and signed.

Risk

- 1.1.9.4 Management may be non-compliant with Regulation I.11. of the PFM Act of 2009 as amended and restated 2019.
- 1.1.9.5 Untimely presentation and approval of the financial statements may impair accountability and decision making. The completeness and accuracy of the financial statements may also be impaired.

Recommendation

1.1.9.6 Management should adjust the financial statements to include the date of approval adjacent to the signatures of the authorizers.

Management's Response

1.1.9.7 This was earlier communicated and was also resolved in the revised financial statements.

Please see attached Exhibit IV.

Auditor General's Position

1.1.9.8 We acknowledge Management's acceptance of our findings and recommendations and subsequent adjustments of the financial statements.

1.1.10 Undisclosed Reporting Period

- 1.1.10.1 Paragraph 1.4.1 of the IPSAS Cash Basis of Accounting states, "the general-purpose financial statements shall be presented at least annually. When in exceptional circumstances, an entity's reporting date changes and the annual financial statements are presented for a period longer or shorter than one year, an entity shall disclose in addition to the period covered by the financial statements:
 - The reason(s) for a period other than one year being used; and
 - The fact that comparative amounts may not be comparable
- 1.1.10.2 During the audit, we observed that Management did not disclose that the amounts for prior and current periods figures may not be comparable due to the change in the reporting period.

Risk

- 1.1.10.3 Comparability, understandability, reconciliation and decision making of users of the financial statements may be impaired.
- 1.1.10.4 Fair presentation and full disclosure may be impaired.

Recommendation

- 1.1.10.5 Management should facilitate full and adequate disclosures in the notes to the financial statements consistent with Paragraph 1.4.1 of the 2017 revised Cash Basis IPSAS Management's Response
- 1.1.10.6 This was earlier communicated and was also resolved in the revised financial statements.

Auditor General's Position

1.1.10.7 We acknowledge Management's acceptance of our findings and recommendations and subsequent adjustments of the financial statements.

1 STATUSES ON THE IMPLEMENTATION OF PRIOR YEAR AUDIT RECOMMENDATION

Recommendations conveyed during financial statement audit of the Liberia Sustainable Management of Fisheries Project (LSMFP) for the fiscal period ended July 1, 2020 to June 30, 2021 are yet to be implemented by Management of the PIU as indicated in the Table below:

Prior-year audit matters not implemented

Outstanding activities																		
Oni																		
Activities																		
Status of recommendation	Not Implemented																	
Auditor General's Position	We acknowledge	Management's	assertion that	"in a nut shell, yes	the stock	assessment was	not implemented	but the process for	the implementation	has already begun	and will continue	well into the main	project." We will	follow-up on the	implementation of	project	deliverables during	subsequent audit.
Management's Response	The PIU believes the	audit team missed out	on the information that	was provided on the	Feasibility Study for	the Mesurado Pier, the	Environmental Social	Management	Framework	Plan (ESMP) and the	Resettlement Action	Plan (RAP). However,	for the purpose of the	audit report, the PIU is	pleased to respond as	follows:
